

# TURN YOUR INTERESTS & PASSION INTO A CAREER.

## READY TO FIND YOUR PERFECT FIT?

### WE WORK WITH YOU. FOR YOU.

The doors to good employment aren't always open or they can be hard to find. With HireAbility Vermont on your side, you're one step closer to a satisfying career. An assessment provides you with the information you need to make better career decisions—whether with your current employer or a new opportunity.

**We help if you are under-employed or want to change your career, too.** You do not have to be unemployed to access HireAbility Vermont services. We help many people who want to work more hours or advance their careers. This may include retraining or support advancing with your current employer, or even training and support finding an exciting new career.

### HOW DOES CAREER ASSESSMENT WORK?

You'll meet one-on-one with your Career Assessment Specialist for facilitated assessments and skills tests. Together with your counselor, you will start to assess your interests, strengths, values, and areas of need. Once you and your counselor have settled on a plan, your counselor will write up an Individualized Plan for Employment (IPE). Your IPE is your road map to your ultimate career goals.
